Code	Line	Column	Text
E501	24	80	line too long (117 > 79 characters)
E501	77	80	line too long (83 > 79 characters)
E501	83	80	line too long (133 > 79 characters)
E501	84	80	line too long (81 > 79 characters)
E501	102	80	line too long (95 > 79 characters)
E501	181	80	line too long (119 > 79 characters)
E501	207	80	line too long (111 > 79 characters)
E501	232	80	line too long (80 > 79 characters)
E501	233	80	line too long (81 > 79 characters)

Your code

```
 1  import os
 2  from flask import (Flask, render_template, redirect,
 3                      request, url_for, session, flash)
 4  from flask_pymongo import PyMongo, pymongo
 5  from bson.objectid import ObjectId
 6  import bcrypt
 7  import math
 8
 9  # Imports the environment variables
10  from os import path
11  if path.exists("env.py"):
12      import env
13
14  # Creates an instance of Flask
15
```
